

Why choose Cradle to Cradle certified ceiling systems?

Certified Ceiling System

- Unique to Armstrong **C2C certified ceiling system** – ceiling tile and suspension system
- All elements of the full ceiling system are made with materials that are safe, healthy and endlessly reusable
- The Armstrong **C2C SILVER** certified suspension systems include:

Prelude 24; Prelude 24 Sixty²; Prelude 15; Bandraster; Prelude 35; Prelude 35 Sixty²; System Z; Spring-T; Drywall Grid systems; Perimeters; and Accessories

- Combine the suspension system with our **C2C Bronze** certified ceiling tiles for the full **30 year system guarantee**
- The Armstrong C2C certified ceiling tiles:

Ultima+ A new smoother, whiter, brighter surface, engineered for a better fit and longer life
Perla Plain, smooth, and low gloss with a monolithic visual

Modular Design for Flexibility and Deconstruction

- **Cradle to Cradle (C2C) certification** recognised by LEED, Google and BREEAM NL as key environmental criteria
- **High recycled content** - mineral ceiling tiles up to 64%, and **fully recyclable** as part of the Armstrong ceiling tile **recycling** programme
- **Provides the best indoor air quality** due to Ultra-low VOC emissions (**A+**)
- Contributes to **better indoor environments with ISO 5** classification suitable for “Clean Rooms”.
